Zaw Min Htwe

Software Developer | Flutter · React · Node.js

Summary

- Driven software developer with extensive experience in cross-platform mobile application development using Flutter, enhancing user engagement across diverse sectors. Proficient in full-stack web application creation utilizing React and Node.js, optimizing backend operations through REST API development. Demonstrated ability to automate workflows with AI solutions, resulting in significant operational efficiency. Committed to delivering high-quality products through meticulous project management and user-centered design, ensuring exceptional client satisfaction.

Experience

Software Developer | Flutter · React · Node.js
Brightware IT Solutions

Jan 2017 - Present
Naypyidaw, MM, Myanmar (Burma)

- Developed and deployed cross-platform mobile applications using Flutter, delivering high-performance apps for multiple clients across various industries.
- Built full-stack web applications using React, Node.js, and PHP, managing both frontend interfaces and backend REST API development.
- Designed, integrated, and customized AI Agent solutions to automate client business workflows and improve operational efficiency.
- Independently handled end-to-end project lifecycle — from client requirements gathering, UI/UX design, development, testing, to final deployment and ongoing maintenance.
- Delivered and maintained multiple self-developed websites and mobile applications, demonstrating strong ownership and technical versatility.

Education

Information Science and Technology - Bachelor's Degree
University of Technology, Yadanabon Cyber City
2012 - 2017 NayPyiTaw
